ii. Executive Summary

[24 CFR Part 903.7 9 (r)]

At PHA option, provide a brief overview of the information in the Annual Plan

Who We Are:

We are a small rural PHA, with a municipal population of 3,600, in a county with a total population of 21,000. A total of 98% of the population is white and incomes for the 40.5% are below low-income levels established by HUD. There are no true concentrations of poverty in the jurisdiction or any minority concentrations.

Development of Additional Housing:

There are two serious problems confronting all PHAs. The first is the lack of decent, safe and sanitary housing for low and moderate-income families. The second is finding funding to develop much need housing. The major goal of the Boyne City Housing Commission is to increase the number of dwelling units available for the low-income families in our area. The first step, with the assistance of our City Government, was to secure property to construct housing on. The City of Boyne City waived our PILOT so that we could purchase 14 acres of property beside our elderly development. The second step was to secure funding through the use of Low Income Housing Tax Credits through the State of Michigan, (the Michigan State Development Authority). The Third Step was to construct 30 two bedroom apartments, which was completed in December of 2002 and is now fully occupied. We are now at the fourth step of our journey, which involves developing the remainder of the property purchased by the Housing Commission. (17% of our area population is over 60 while the state average is 11%) Further development of the parcel will take time and creative financing.

5(h) Plan:

Another avenue for increasing available housing is through the use of our 5(h) plan. We currently have four families interested in purchasing the Low Rent Program dwellings they reside in. The only problem is if we sell the houses, we will not generate enough income to construction an additional dwelling. We are currently investigating various funding sources to leverage the funds we would generate from the sale.

Section 8 FSS:

The Agency has a small but active Family Self Sufficiency program for the section 8 program and have, for a small program, relatively good success having Voucher recipients graduating from the program.

Capital Fund Improvements:

The two of the biggest problem under PHAS's Physical Assessment Sub System has been points being reduced for what REAC considers site problems and the type of units inspected. During each of the past three inspections, 25 out of 26 family houses have been inspected, and only 7 of 54 elderly apartments. While we have only two sites, they encompass over 10 acres. This being the case, and no indication that REAC will change their inspection format, we will be spend a disproportionate amount of money improving exteriors of family houses and landscaping.

Using Capital Funds, the Housing Commission has developed a maintenance garage for equipment storage, work space and maintenance office.

At our elderly building, we have developed a computer lab but the equipment is cast off and not in good shape. The lab has four computers, which are available to all residents, elderly and family alike. The Agency is currently setting up a domain to administer the resident mailboxes and we have volunteers from the community available to teach computers skills to the residents. We are continuing to apply for grant funds to upgrade the computer lab and improve computer training.

1. Summary of Policy or Program Changes for the Upcoming Year

In this section, briefly describe changes in policies or programs discussed in last year's PHA Plan that are not covered in other sections of this Update.

Due to the small amount of capital funds allowed for a PHA our size, we will be running all Capital Funds though the Low Rent Operating Budget. Capital expenditures will be categorized as normal Maintenance Materials, Contract Costs, Extra Ordinary Maintenance, or Betterments and Additions.

 3. Waiver of PILOT on 80 units of Public Housing
4. The Consolidated Plan of the jurisdiction supports the PHA Plan with the following actions and commitments: (describe below)

C. Criteria for Substantial Deviation and Significant Amendments

1. Amendment and Deviation Definitions

24 CFR Part 903.7(r)

PHAs are required to define and adopt their own standards of substantial deviation from the 5-year Plan and Significant Amendment to the Annual Plan. The definition of significant amendment is important because it defines when the PHA will subject a change to the policies or activities described in the Annual Plan to full public hearing and HUD review before implementation.

A. Substantial Deviation from the 5-year Plan:

Substantial Deviation from the five-year plan would be the elimination of existing programs, changes in Commission Status, required by PHAS or changes in HUD Regulations, creating or eliminating specific goals and initiatives. The Agency would also consider a substantial deviation from the Five Year Plan to be elimination of funding to the point where services, initiatives or programs could not be funded.

B. Significant Amendment or Modification to the Annual Plan:

Significant amendment or modification to the annual plan would be cases where HUD has mandated changes, which would materially affect the day-to-day operations of the Housing Commission
